## CARBON REDUCTION PLAN

**Supplier Name:** Altomed Ltd

**Publication date:** 6<sup>th</sup> March 2025

### Commitment to achieving Net Zero:

Altomed Ltd is committed to achieving net zero by 2050.

### Baseline Emissions Footprint:

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

This is Altomed first year of reporting its greenhouse gas emissions.

Baseline Year: 2023	
<b>Additional Details relating to the Baseline Emissions calculations:</b>	
<b>Baseline year emissions:</b>	
Altomed has utilised <a href="https://www.trackmycarbon.co.uk/">https://www.trackmycarbon.co.uk/</a> to calculate its scope 1, 2 and 3 emissions.	
We have elected the current year (2023) to serve as baseline year emissions.	
EMISSIONS	TOTAL (tCO <sub>2</sub> e)
Scope 1	<b>39.2289</b>
Scope 2	<b>12.1449</b>
Scope 3 (Included Sources)	<b>Scope 3 Total: 1,280.4723</b> <b>Category 4:</b> Upstream Transport & Distribution   <b>432.6326</b> <b>Category 5:</b> Waste Generated in Operations   <b>0.4336</b> <b>Category 6:</b> Business Travel   <b>33.8816</b> <b>Category 7:</b> Employee Commuting   <b>22.9201</b>

	<b>Category 9: Downstream Transport &amp; Distribution   790.5891</b>
<b>Total Emissions</b>	<b>1,331.8461</b>

Current Emissions Reporting:

<b>Reporting Year: 2024</b>	
<b>EMISSIONS</b>	<b>TOTAL (tCO<sub>2</sub>e)</b>
<b>Scope 1</b>	<b>46.1962</b>
<b>Scope 2</b>	<b>12.0232</b>
<b>Scope 3 (Included Sources)</b>	<b>Scope 3 Total: 1,204.9497</b> <b>Category 4: Upstream Transport &amp; Distribution   430.9780</b> <b>Category 5: Waste Generated in Operations   0.3495</b> <b>Category 6: Business Travel   28.3952</b> <b>Category 7: Employee Commuting   22.9872</b> <b>Category 9: Downstream Transport &amp; Distribution   722.2111</b>
<b>Total Emissions</b>	<b>1,263.1691</b>

### Emissions Reduction Targets:

To continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets. We project that carbon emissions will decrease over the next years to 0.0000 by 2050 this is a reduction of 100%.

Progress against these targets can be seen in the graph below:

Carbon Reduction: Projected vs Actual

### Carbon Reduction Projects:

#### **Completed Carbon Reduction Initiatives**

The following environmental management measures and projects have been completed or implemented since the 2023 baseline.

Introduced recycling stations to the office and started to find ways of repurposing and reusing packaging that cannot be recycled in the warehouse to reduce amount of waste going to landfill.

Initiated new packaging project with target of moving 80% of plastic packaging to recyclable cardboard by 2028.

Reached out to all suppliers and started conversations about how we can jointly reduce CO2 emissions.

Informed all employees of carbon reduction plan targets and need to reduce CO2 emissions across scope 1, 2 and 3. Encouraged employees to step forward with ideas on how to reduce CO2 emissions.

### **In the future we aim to implement further measures such as**

Reducing average car fleet emissions by educating employees on maintenance of their vehicles and raising awareness of fuel efficiency.

Transitioning fleet of cars to hybrid or electric and installing electric charging point at head office.

Increasing the amount of electricity purchased from renewable providers.

Investigating new energy efficient premises or option to improve efficiency of current premises.

Identify the lowest impact CO2 emissions options for downstream transportation of goods.

Encourage and incentivise customers to order more items in fewer shipments as to reduce number of deliveries required.

Work with suppliers to reduce number and frequency of shipments and identify lowest impact CO2 emissions for upstream transportation of goods.

### **Declaration and Sign Off:**

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard<sup>1</sup> and uses the appropriate Government emission conversion factors for greenhouse gas company reporting<sup>2</sup>.

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard<sup>3</sup>.
